

SNAPRING TIRESAVERS™

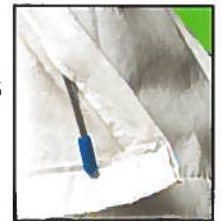

Better Protection for your tires

Tires take a lot of abuse and can become unsafe if left exposed to the sun and other environmental hazards too long. Now you can protect your tires with ease using Covercraft's Snap-Ring TireSavers.

Our exclusive spring-steel ring design holds the TireSavers in place and eliminates the hassle of crawling around on the ground trying to secure straps and hardware.

Just spread the TireSaver, slide it over the tire, and let the steel ring "SNAP" it into place! Now your tires are protected and the TireSaver is held secure.

Heavy duty, flannel backed vinyl protects your tires and wheels from:

- HARMFUL UV RAYS
- DIRT AND DUST
- ACID RAIN
- ANIMALS AND PETS

Snap-Ring TireSavers are available in seven (7) sizes to accommodate almost any application. Measure the diameter across the center of your tire from the edges of the tread to determine which TireSavers you need.

SIZE	PART #	TIRE DIAMETER
MINI	ST7006	19"-22"
XSM	ST7000	24"-26"
SM	ST7001	27"-29"
MED	ST7002	30"-32"
LG	ST7003	33"-35"
XLG	ST7004	36"-39"
GIANT	ST7005	40"-42"

Specify White or Black when ordering.
