

4 New Colors Available!

CUSTOM PATTERNED UV HEAT SHIELDS

The only UV Shield to earn a U.S. Patent....the UV Heat Shield that pioneered a product segment....now available in colors! When the UVS100™ was created back in 1985, it was so unique it was granted a Design Patent. Even though there are plenty of knock-offs on the market now, we still make the UVS100™ Heat Shield by hand, one unit at a time, from laminating the panels to cutting the pattern.... these are truly Crafted2Fit™.

Reduce interior temperature Protect seats and dash from UV damage

Crafted²Fit™

Custom patterned to follow the outline of the windshield, we have more than 1200 patterns to fit most popular cars, pickups, SUV's, CUV's and wagons.

Front windshield UV Shields are easy to use and provide protection at the beach, work, airport...anywhere you park!

- Reduce interior temperature.
- Help protect seats and dash from UV damage.

Made in the USA

Now Choose from 5 Colors and 1200+ CUSTOM Patterns

Color Code – SV

Color Code – GD

Color Code – RO

Color Code – BL

Color Code – GN

The laminated construction features of our premium quality, custom patterned folding heat shield are:

- Reflective fabric on the outer side.
- Insulating foam-core center.
- Soft gray felt-like material on the inside and a soft non-marring felt binding.

Just unfold and position across the windshield, then fold down sun visors.

Optional storage bag available.
